## GRAFTED STOCK

All our grafts are worked on transplanted understock and are supplied out of 2¼ inch Rose pots. We will graft any variety not listed, where customers supply the scions, in which case we make a liberal allowance for scions furnished. Delivery is usually made after April 15th, but can make earlier shipment if desired. To avoid disappointment kindly place your orders early, as we are often sold on many varieties early in the season.
